FOREWORD BY OUR FOUNDER AND DIRECTOR GRAHAM R TAYLOR...

For more than twenty years, **Diplomatic Mission Supplies** has established itself as one of the most trusted and reliable sources of **Procurement and Logistics** specialists to the FCO; British Posts; DFID; BCG and MOD worldwide.

Over the past decade we have specialised in furniture housepacks including sofa sets and mattresses; we are proud to supply through the **FCO contract CPG1512** ensuring we adhere to strict methods of production including timber from sustainable sources; using only **CMHR** foam and mattresses to **British Standard Crib 5**.

Health & Safety issues are constantly referred to as ‘in house’ as we constantly strive to offer unrivaled support to overseas Missions as we endeavor to source all manner of products that do not compromise our environmental beliefs, working with manufacturers and shippers the support ‘green’ issues worldwide to reduce our Carbon Footprint, including recycled packaging whenever possible.

During this time, we have built up an enviable reputation for first class service delivering superb products at value for money prices for our loyal and expanding customer base. We have excellent trading relationships with our carefully chosen business partners enabling us to meet or exceed customer expectations and this new range of handmade sofa sets reflects the superb quality synonymous with our name...

Diplomatic Mission Supplies

We have made countless complimentary visits overseas to our clients to ensure we understand the individual needs of each customer per region so we can work together as a team committed to serving HM Government, providing the very best of British manufacturing whenever possible, after all, Britain is Great!

QUEEN ANNE

The custom of social tea drinking took off in the Queen Anne period, and with that, the need arose for small moveable chairs. The single most distinctive feature of Queen Anne furniture is the cabriole leg, and the “splat” back, which is curved in order to fit the hollow of the spine.

We produce our Queen Anne model with a distinctive kidney shaped arm.

Our Queen Anne Collection comes standard as a Queen Anne Chair, matching footstool, 2 Seater Sofa, plus we can make a sofa to your specific length.

KING

A number of our customers are both tall and broad, and would love to purchase a wing chair, but find the width between the wings is too narrow to accommodate them, or the seat is too slim, or not deep enough. The solution to this is the King Chair. The King Chair is broader, so your shoulders will sit in more comfortably, as will your body. The beautiful and unique feature of this chair is the “claw and ball” leg which gives the piece its statement.

The back is taller, offering better support for your head, and the King Chair is deeper, allowing you to sit right back into the chair, all the while being supported in a spacious chair. It is a our take on the famous Queen Anne design which we do very well except the King chair has a little bit more presence.

In conclusion, the King Chair could prove to be a superb choice for the Kings & Queens amongst us !

HARVARD

If ever we were to change the name of the Harvard Chair, the most likely name to choose would be the OMG Chair. We will often recommend that a person, who is looking for a chair that has good back support, tries out the Harvard chair. When they try it, often you will hear OMG, this chair is so comfortable.

The Harvard chair is one of the most important chairs in our assortment . It has a Retro-style look, like a chair from the 1930's , with a gently curved back. The chair has a pronounced lumbar cushion ; the cushion fits right into the lower back, and for many people, it provides the kind of back support they only dreamed about.

WIDTH	77	30
DEPTH	92	36
HEIGHT	100	39

The legs are slim & modern looking, and come in either a light wood or dark wood finish. This is the sort of chair that can accompany any style of suite or looks good as a fire side chair or even in a bedroom setting.

MATISSE

Matisse is the newest chair to join our chair assortment. This is available with deep buttons or without (less expensive option)

It has three rows of deep buttons on the back and they help create the folds & lines on the back of the chair. Matisse has a fixed seat cushion, and this gives the chair a traditional look, and we believe it will look & feel nicer as it ages.

The arms are very comfortable to rest against, and are easy to grip when alighting the chair. They are finished with a piping that define the shape beautifully. The spoon back shape of the chair provides real support and comfort. Matisse is currently offered in a dark leg finish, with or without a castor.

LISA

Lisa is the most unassuming of chairs, but it's strength is in its versatility. Lisa has a modern line, all clean angles, so it's perfect to upholster, and it changes with every fabric used on it.

Lisa has lovely tapered, elegant legs, which come as light or dark finish. Lisa looks great in patterns, in stripes, in plain fabrics, or in customer's own material, and it looks great in a hallway, a neat area in a living room, a bedroom, it's uses are endless.

The Lisa chair can also be made into a very modern looking sofa, speak to your salesperson for details.

CLEARY

This most dignified and elegant of chairs joined the Finline Collection in 2014 and although a novice, it has rapidly built up a following.

CHAIR	(CM)	(INCHES)
WIDTH	79	31
DEPTH	87	34
HEIGHT	97	38

Cleary has a square-ish (but rounded-off corners) fixed spring back cushion, which gives super back support and whilst allowing the chair to be just 34" deep. The width of the chair is 33", much neater than conventional armchairs.

The Cleary legs are 8" high and are finished with a castor. The legs come in a light or dark finish, and with or without a castor.

AISLING

There are times when your room will need “something” to finish it, a little chair to sit in the corner, not some bulky armchair that will overwhelm the room. If you find yourself thinking like this, then you might find yourself considering the Aisling Chair.

Aisling is the embodiment of the compact elegant chair, and a surprisingly comfortable chair to boot. Aishling features cabriole legs, so it will fit within a classic scheme, or it could be put within a modern setting as a quirky statement piece (try covering it in a statement fabric). This occasional chair is designed with a spoon back which really provides support and is considered by some to be our most comfortable chair.

It is suitable for a living area, it could be placed in a hall or landing as a feature piece. It would make a beautiful addition to a main or guest bedroom.

TUB

“**R**ub-a-dub-dub, three men in a tub” goes the old nursery rhyme, but Tub chair is a one person chair !

CHAIR	(CM)	(INCHES)
WIDTH	74	29
DEPTH	72	28
HEIGHT	72	28

Our Tub chair is a most compact piece, just 29” wide, 30” deep, and 28” high, so it has a balanced look. It sits atop modern block feet, and they are available in both a light and dark finish. We can use any fabric on our Tub chair, so whether you want to use a funky modern accent fabric, a plush velvet or a cool modern linen type fabric, it’s up to you.

HARVARD FRAME & CHAIR

DYLAN

The Dylan chair is a most understated looking chair, but boy is it comfortable! This chair has a compact width, only 32” wide, so it will fit into the narrowest of spaces. The depth of the Dylan chair is 35”, and it has fixed back upholstery, so you get a very comfortable depth in a tidy chair.

The Dylan legs are chunky and modern, and they come in a light or dark finish. And as usual, available in any fabric from any of our collections.
