## FOREWORD BY OUR FOUNDER AND DIRECTOR GRAHAM R TAYLOR...

**F**or more than twenty years, **Diplomatic Mission Supplies** has established itself as one of the most trusted and reliable sources of **Procurement and Logistics** specialists to the FCO; British Posts; DFID; BCG and MOD worldwide.

Over the past decade we have specialised in furniture housepacks including sofa sets and mattresses; we are proud to supply through the **FCO contract CPG1512** ensuring we adhere to strict methods of production including timber from sustainable sources; using only **CMHR** foam and mattresses to **British Standard Crib 5**.

**Health & Safety** issues are constantly referred to as ‘in house’ as we constantly strive to offer unrivaled support to overseas Missions as we endeavor to source all manner of products that do not compromise our environmental beliefs, working with manufacturers and shippers the support ‘green’ issues worldwide to reduce our Carbon Footprint, including recycled packaging whenever possible.

During this time, we have built up an enviable reputation for first class service delivering superb products at value for money prices for our loyal and expanding customer base. We have excellent trading relationships with our carefully chosen business partners enabling us to meet or exceed customer expectations and this new range of handmade sofa sets reflects the superb quality synonymous with our name...

**Diplomatic Mission Supplies**

We have made countless complimentary visits overseas to our clients to ensure we understand the individual needs of each customer per region so we can work together as a team committed to serving HM Government, providing the very best of British manufacturing whenever possible, after all, Britain is Great!

One of the biggest draws our collection has to be the Corner Groups. Each model has its own individual merits, and so we come to the Greek Gods of our collection, The Atlas.

The Atlas Collection is a series of corner-groups, sofas, footstools & island units, and the Apollo armchair. The Atlas group features the highest back of all the corner groups, which is very supportive, given the generous 108cm depth of the Atlas pieces. Even the very tall amongst us, finds this a very comfortable and supportive model.

The Atlas features a Saddle arm, which in linen, velvets and textured fabrics, gives it a very tailored Italian look. In the casual cord velvets, it looks squashy and inviting, a sofa to spend the long Irish winter's in. The matching chair for the Atlas is the Apollo Armchair. It features the round arm of the Atlas, but not the saddle arm, as those big-scale arms would overwhelm an armchair. The armchair is neater in depth, so it's a very neat and cozy sit.

If you want something truly relaxing this is your sofa – we liken this to our favourite pair of slippers & pajamas combo “true comfort” – its like Sunday Lounging in sofa version. The Montreal can be made the way you want it – as a sofa or as an L – Shaped Sofa or Corner Group. What people are often looking for is deep comfortable seats that you can relax in, lie back in, sprawl out in front of the tv, watching a movie, or the big game !

If this is what you are looking for, then your search might be over. The sofa version of the Montreal has square chunky arms and can come with fibre filled seat cushions (super-soft) or regular foam filled. This sofa and corner group combination is the king of every day comfort.

The Montreal model is made up of different sized components : units with arms right or left, arm-less pieces, a great chaise unit, and an Island Unit or footstool. We will help you build the sectional that most suits your space, so whether you need a long sofa, an L – Shaped sofa, or even a U – Shaped model, bring us your measurements, and we will do the rest ! Also offered with the Montreal Collection is a Single Chair, Loveseat, Small Sofa & Large Sofa.

# ATLAS & MONTREAL CHAISE

The Montreal Chaise Sofa and the Atlas Chaise Sofa have some similarities, the main one being that they are both 107cm deep, but each model has its own distinct personality, and there are some subtle differences between Montreal & Atlas.

The Montreal model has a low, modern look. The arm is slimmer than that of the Atlas, and a lot less bulky generally. We find that the flat top of the arm is great for when you are using your laptop / tablet, or simply using it to rest a cup of tea. If you like the sleeker lines, Montreal may be the Chaise Sofa you go for.

The Atlas has a bigger presence in a room, due to the big saddle arms, and the higher back cushion. It isn't often you'll get a high backed chaise sofa, and the Atlas is so comfortable, and for some people, the feature of the higher back is a real plus.

**W**e based the design of this model on feedback from customers. Some wanted a neat corner group, some wanted a corner group on legs and other wanted something with a slightly more traditional arm that didnt take up too much sitting space. We're sure you'll agree that we have managed to tick every box here.

The Aslan model takes its arm from the popular Ascot Model – it is a scroll arm but with a more contemporary finish. It has a capped-on arm, which means that the front of the arm has a flat floated finish, and crisp piping around the edge of the arm. The arms are neat, so they don't "take over" your room, and the Aslan sports attractive turned legs, with or without castors.

This corner group can be made up in a size to suit your room. Bring your measurements and we will help you plan for the space you have. See also our Ascot Sofa in Sofas & Chairs. The Aslan offers a clean & fresh look, and is very effective when upholstered in plain & textured-plain fabrics, or in a nice modern airy floral, indeed, any fabric you wish to choose.

# COMO

The Como was named after the famous Lake Como in Italy. It is renowned as a popular retreat for aristocrats and wealthy people since Roman times, and a tourist attraction with many artistic and cultural gems. The lake is narrow and sleek and bends almost at 90° just like our Como Corner Group. With its contemporary high and narrow arms with accompanying side bolster, this model offers you a neat corner group with the comfort of any of our sofas.

It can be bespoke made to suit your room. We offer this model as a 2 piece solution unlike some of our other corner groups which come as 3 pieces. This makes the Como Corner Group our most affordable. It comes with 4 complimentary scatter cushions and side bolsters on the arms. Because this corner group was so popular we designed a sofa version as well. Please have a look at it in our Sofa & Chairs Section.

# NOLAN CHAISE END

When you can see under a sofa or a chair, it fools the eye into believing that room space is bigger. One of the tricks that Interior designers use, is to have a sofa on legs, rather than a base that sits almost on the ground.

CHAISE END	(CM)	(INCHES)
WIDTH	229	90
DEPTH	94	37
HEIGHT	90	35

LOVE SEAT	(CM)	(INCHES)
WIDTH	122	48
DEPTH	94	37
HEIGHT	90	35

SMALL SOFA	(CM)	(INCHES)
WIDTH	163	65
DEPTH	94	37
HEIGHT	90	35

LARGE SOFA	(CM)	(INCHES)
WIDTH	229	90
DEPTH	94	37
HEIGHT	90	35

This is one of the details that makes the Nolan sofa with (or without) chaise a popular choice. The Nolan arms are tidy & streamlined, and with the depth being only 94cm / 37", it is an ideal sofa for anyone who has a neater space to furnish, or some who simply finds a lot of models to be too deep.

This model is contemporary and neat at the same time, perfect for more informal rooms. The Nolan comes as a Large Sofa, Small Sofa, Loveseat, Armchair, Island Unit & Footstool, and of course the option of adding a chaise to either end allows this sofa to become your very own napping fortress.
